

10mL Transport Tube, Polypropylene (PP)

Item# 6102

Description

These popular tubes are designed for the safe storage and transport of biological materials. The transparent polypropylene (PP) vials allow unobstructed viewing of the sample. The vials are shatter-proof and may be exposed to freezing temperatures. They feature leak-resistant screw caps that can be removed or sealed in a single turn.

Features

- Self-standing with conical bottom
- Molded graduations
- Shatter-proof polypropylene tubes
- Leak-resistant polyethylene (PE) screw caps

Products

Item #	Description	Unit
6102	10mL transport tube, white screw cap, unassembled	1000
6102B	10mL transport tube, blue screw cap, unassembled	1000
6102C	10mL transport tube, white screw cap attached	1000
6102G	10mL transport tube, green screw cap, unassembled	1000
6102R	10mL transport tube, red screw cap, unassembled	1000
6102Y	10mL transport tube, yellow screw cap, unassembled	1000
6122A	10mL transport tube (no caps)	1000

10mL Transport Tube, Polypropylene (PP)

Item# 6102

Technical Specifications

Material: Tube: Polypropylene (PP)
Cap: Polyethylene (PE)

Dimensions: 16 x 92mm

Autoclavable: Yes (without cap) 121°C for 15 minutes

Temperature Range: -80°C to +121°C

Sterility: Non-sterile

Graduations: Molded, 1mL to 10mL at 1mL increments
